This historic cemetery has been visited several times in recent years by White County Historical Society volunteers, who continue to do periodic updates. Diann Poe and her cousin Billie Willingham, both of Letona, conducted a survey in October 2000 and again in March 2001, updating a list that had been prepared by volunteers Mitzi Hitchcock and Bill Martin. The Poe/Willingham report included these directions: "To get to the Cemetery go two blocks past the old store in Letona, turn left on Mt. Pisgah Road. The cemetery is about 1½ miles south of Letona on Mt. Pisgah Road at the base of the mountain. When you come to a little creek bridge, keep going straight head. It's on the right. The cemetery is in fair shape. The back drive is rutted out and in need of gravel. There are some limbs in a few spots and a lot of markers are covered with moss." They found some 70 rocks or stones that were blank or illegible and one stone marked only with "C."

The records were updated again by Leroy Blair of the Historical Society after he visited the cemetery with his wife Ellen on June 25 and 26, 2001, and again in late 2002. Subsequent burials were added by the historical society based on published obituaries. Blair was unable to find several graves that were on the earlier list, reporting "This cemetery is very difficult to list due to how the graves are scattered. It is very easy to miss some graves..." Also, he reported that "There is a very large modern double stone that has fallen off its base and is lying with names down so they cannot be seen; it is too heavy for one person to lift." He pointed out that the back drive mentioned in the previous listing has now been graveled and most limbs have been removed.

On December 17, 1978, the White County Daily Citizen published the following article, entitled "Mt. Pisgah to beautify cemetery." The members of the Mount Pisgah Cemetery Board met December 10 to discuss the care and beauty of the Cemetery Clyde E. Crozier, secretary/treasurer, reported. Crozier said the members decided that anything which would interfere with mowing over graves or ground with the exception of headstones be removed. They also decided that in the future all markers for family plots be placed level with the ground and that all flowers which are brought to the cemetery be placed only on the headstones. Leroy Blair visited this cemetery again in January and February 2005. Checking headstones, he added 37 new names to the list and made other adjustments. He was unable to find several graves that were on the previous lists. "Most of them had been marked previously with funeral home markers or carved on rocks. I saw several rocks with letters on them but not clear enough to read."

Most of the cemetery information listed was collected by Leroy "Lee" Blair Former member of the White County Historical Society Board of Directors. Now working at the White County Historical Society office on the square in Searcy. WCHS P. O. Box 537 Searcy, Ark. 72145.

If you have any additions or corrections to the burial listing please contact the Historical Society. Phone 501-278-5010 or Email me at lblblair74@gmail.com or wchs1962@gmail.com

I will be posting more burials later. The Searcy Daily Citizen donated all their Micro Film and Ledgers dating back to 1953. After reviewing them, if I find a death of a person that we do not have I will to add to the cemetery listings.

There are some graves listed as unmarked that may have had a tombstone set since the listing was made.

I may have missed some graves when I prepared the listing. Some cemeteries are very hard to get an accurate listing due to how some graves are scattered

The following Abbreviations are used in the listings.

FM-Funeral home marker DS-Double tombstone TS-Triple tombstone

(Obit)-means that the Historical Society has, or has access to the Obituary for this person.
